

Helper Boulevard and Liberty Drive Pavement Improvements

As part of the City of Wixom's 2009 Road Maintenance Program, road repairs will be made along Helper Boulevard and Liberty Drive. This work is in progress and completion is anticipated in July. The work will consist of removing and replacing the existing asphalt pavement and base material, with some curb and gutter repairs, and minor storm sewer improvements. Existing sidewalk ramps along Helper Boulevard will be reconstructed to be ADA (Americans with Disability Act) compliant. Two-way traffic will be maintained at all times, but delays may and will likely occur.
